THE NEWS OF THE WEEK.

A Daily Resume of Latest Happenings.

OCTOBER 17.

Judge Allen Hyden, of Boggsville, who was shot from ambush a few days ago, is dead as the result of his wounds. The Owsley county officers are making every effort to run down the assassins.

Commissioner of Internal Revenue Yerkes has consented to make a number of speeches for the Kentucky Republicans during the next two weeks. He will speak in the Third, Sixth and Ninth Districts.

In closing a speech at Williamstown in the interest of Judge Paynter and the Hon. D. Linn Gooch, Judge James D. Black, of Barbourville, announced that he would be a candidate for the Democratic nomination for Governor.

It is positively stated on Wall street that Secretary Shaw has completed negotiations for the purchase of \$15,000,000 of 4 per cent. bonds. It is also said that within two weeks an offer of \$10,000,000 of the same class of bonds will be accepted.

The Kentucky Bankers' Association held its closing session at Paducah. S. K. Reed, of Henderson, was elected president. There was a lively debate on the Fowler Banking Bill, which resulted in the association endorsing certain features of the measure.

Col. A. L. Mills, superintendent of the West Point Military Academy, in his annual report states that during the past session there was only one case of hazing. The guilty person was dismissed. To stamp out malaria, oil has been applied to all places where there is standing water.

Capt. John C. Capers, United States District Attorney in South Carolina and Republican National Committeeman, is opposed to the strict "Lily White" idea. He states that there is no good reason why the Republican party in the South should be wholly white and that there is every reason why it should not be wholly black.

Operation of the anthracite mines is expected to be resumed about next Thursday or Friday. Members of the miners' executive board met yesterday in Wilkesbarre and called delegate convention for 10 o'clock Monday morning, with the recommendation that the proposition to submit difficulties to the arbitration commission named by the President be accepted.

La Soufriere, after several hours of ominous growls, was in terrible eruption Wednesday. Immense quantities of sand and rock were belched up. Kingston and the other southern points of the island were uninjured, but no reports had been received from the Windward district. A large mass-meeting had been held at Kingston, vigorously protesting against being removed to Jamaica, and asking that Sir Robert Liowellyn be supplanted as Governor.

Secretary of State Hill has forwarded to the County Clerks of the State the certificates of the nominations of candidates to be voted for in November. Several candidates, including P. H. Darby, Republican nominee for Appellate Judge, and C. H. Linn and Leslie T. Applegate, Republican nominees for Congress, failed to file certificates with the Secretary of State. Secretary Hill thinks this provision of the law is not mandatory, but says it will depend on the County Clerks as to whether these names get on the ballots.

Consular reports to the State Department present the following important commercial facts: Reciprocity treaties are in Germany, because under them export trade has increased and import trade has diminished. The early removal of British Columbia's export duty on lumber is attracting American mills across the border and largely prospering the Canadian lumber trade. The character of vehicles in Chili continues primitive. The prospect for importation of American bicycles to the Netherlands is not bright.

OCTOBER 19.

President Mitchell, of the Mine Workers' Association, gave J. P. Morgan credit for an endeavor to settle the coal strike over since his return from Europe. He said the financier had been "fair and reasonable." The operators are said to have determined to increase the cost by fifty cents a ton at the mines. The sum of fifteen cents a ton is expected to go to the miners as an increase in wages. It is said that President Roosevelt

contemplates incorporating in his message to Congress some of the points brought out in the findings of the Board of Arbitration.

Circuit Judge Parker, of Fayette county, yesterday ordered the Sheriff to summon a special grand jury to meet in Lexington next Wednesday. While the object is not stated in the order, it is understood that the jury is summoned to investigate the murder of A. B. Chinn by Earl Whitney and Claude O'Brien. Mr. Chinn's will was offered for probate in the Fayette County Court yesterday. It was dated August 21, 1897, and bequeathed all his property to his wife during her lifetime, the estate to be divided between his children after her death. The condition of Asa Chinn is still serious.

The report of the Commissioner of Immigration shows that 648,748 immigrants arrived in the United States during the past fiscal year. Italy led with 178,375, an increase of 42,379; Austria-Hungary second, 171,989, increase of 58,599; Russia third, 107,947, increase of 22,000; Arrivals from Ireland were 28,138, a decrease of 1,423. Only two-thirds of 1 per cent. were refused admission. Of the total number of immigrants 162,188 were unable to read or write, but 74,063 of these were under 14 years of age.

La Soufriere's last outbreak did vast damage in the windward district of the island. Territory which had been supposed to be beyond the volcanic zone was greatly damaged, hot sand destroying thousands of economic plants. The situation is critical. Two earthquakes shocks were felt yesterday in Seaweed, Tenn.

After seven days of hard fighting near La Victoria, President Castro, of Venezuela, has defeated the revolutionary forces under Gen. Mendoza and forced them to retreat in the direction of Villa de Cura. President Castro claims that it was a sweeping victory, and says the casualties in the rebel camp numbered 3,500.

President Roosevelt has not abandoned the idea of visiting Mississippi this fall.

OCTOBER 20.

The Austrian Government is preparing a bill—the first of its kind in Austria—to combat drunkenness.

Many signatures of Abraham Lincoln have been cut from the records in the office of the County Clerk at Paris, Ill.

United States Minister Bowen has reported to the State Department that the recent battle near Victoria was indecisive.

Firebugs attempted to destroy the city of Wheeling, W. Va. Twelve fires of incendiary origin occurred in the space of three hours.

The advance in the price of Indiana coal has started talk at Indianapolis of proceeding against the Indiana Coal Operators' Association.

A dispatch from Wilmington, N. C., tips Warren D. Elliott, as president of the combined system, including the Atlantic Coast Line and the Louisville and Nashville.

A Kansas City woman has recovered by law from the Rock Island Railroad Company the sum of fifty cents paid a transfer company as storage charges. An appeal was taken, and the case will probably go to the Supreme Court.

Both Democrats and Republicans profess satisfaction over the registration in New York City and State, and each side claims the victory in the coming election. In difference has prevailed among the voters up to this time.

The merging of the coal mining companies of Indiana into one concern is expected to be consummated by January 1. The proposed company is to be capitalized at \$25,000,000. John W. Gates is said to be interested in the movement.

The legality of overcapitalization will be tested in the suit against the reorganization of the Chicago and Alton railroad, which comes up in Chicago today. It is charged that the reorganization was on the "water plan." The Harriman purchase price was about \$45,000,000, while the stock market value now is approximately \$30,000,000.

a paroled prisoner he could not marry a lady who, it is said, reciprocated his affections. He and his brother, Cole Younger, had been at outs for several months. The dead man was fifty-four years of age.

The only serious problem expected to confront the miners' delegates who will meet today at Wilkesbarre for the purpose of declaring off the strike, is that of securing old places. The operators are on record with the assertion that no workmen who have remained during the strike will be removed. Strike leaders are confident that the arbitration proposition will be accepted and that mining will probably be resumed on Thursday.

His Life in Peril

"I just seemed to have all gone to pieces," writes Alfred Bee, of Welfare, Tex., "illness and a lame back had made life a burden. I couldn't eat or sleep and felt almost too worn out to work when I began to use Electric Bitters, but they worked wonders. Now I sleep like a top, can eat anything, have gained in strength and enjoy hard work." They give vigorous health and new life to weak, sickly, run-down people. Try them. Only 50c at A. M. Hughes drug store.

OBITUARY.

"Blessed are they who die in the Lord."

Miss Birdie Hutchison, youngest daughter of Vinton Hutchison at Fallsburg, Ky., passed from this life October 7th at the home of Chas. Warren, Buchanan, Ky. after an illness of five days. She was teaching the public school at this place when she was taken sick. During her short illness she suffered excruciating pains, scarcely had a moment's rest. She had the attention of two excellent physicians, her sisters and many other friends who did all that human hands could do, but their efforts were of no avail, the Master wanted her for some purpose which we are unable to understand. Miss Birdie was a young lady whose character was above reproach, she was loved by all who knew her, her life was so pure that many of her intimate friends regarded her as a Christian. She had been brought up in a Christian home, her father and mother had both gone to the land of eternal rest when she was quite young. Soon after she was taken sick I visited her, having never heard from her lips that she was a child of the King I felt constrained to learn her true position. I advised her to put all her trust in the Lord Jesus Christ, she at once saw the danger and like an honest girl began to think and act upon my advice. She immediately called her trusted physician and inquired of him if she was in danger. He like an honest physician, gave her the benefit of the doubt. She at once sent for Rev. C. Dean an old favorite friend of the family who came and administered to her spiritual welfare. She became an earnest seeker greatly interested about her soul, and realized that she must be born again. The disease seemed to be gaining ground every moment. I was summoned to her bedside by her earnest request. We had prayers and did all we could to comfort and encourage yet she could not receive the blessing which she so much desired. On Sunday night we again assembled and by her request had prayers and songs, her interest for her soul deepened, her cravings for the baptism of the Holy Spirit knew no bounds, at times she expressed fears, she spoke of the darkness of the night and the awful gloom which hung over her, she said "O! I am afraid that Jesus will not come and that I shall die before the morning and will miss Heaven and never see my sainted mother and father." She was assured that Jesus was present ready to bless her, she was admonished to believe in the Lord Jesus Christ and she would be saved. For a few moments there seemed to be an awful suspense, the whisper of prayer could be heard all about the room, she was bid to let go and fall into the arms of the Savior. She did so and light from the eternal throne broke forth and filled her soul with unspeakable joy. It would be useless to undertake to describe what followed. All Heaven and earth seemed joined together in praising Him who sits upon the throne of everlasting peace.

After her season of joy she began to persuade her kindred and friends to meet her in Heaven. She divided her earthly effects, gave all instructions as to her bodily preparations, funeral and burial. She selected Rev. French Rice to preach her funeral. Rev. C. Dean and others to follow with appropriate remarks. The funeral was preached at her home to a large congregation. The services were touching in the extreme, the body was laid to rest in the family grave yard near her father and mother.

YATESVILLE.

The funeral of Covey Carter and wife will be preached the first Sunday in November at Morgan's creek church by Wm. Ball and Albert Miller.

Willie Woods, son of John Woods, deceased, died Friday of consumption.

\$11,000 CASH

Will be Yours if You Estimate Nearest the Vote of Three States.

OPEN TO OUR SUBSCRIBERS.

As already announced, the Big Sandy News has arranged for its subscribers to take part in a contest in which \$25,000 is to be paid to those who make the nearest correct estimates as to what the total vote of New York, Pennsylvania and Michigan will be in the races for Governor next November. Read our big advertisement and find out all about the plan. The vote of these states for several years past is given therein, so that all may be saved the trouble of looking the matter up.

SPECIAL OFFER.

It was originally our intention to allow an estimate only with each dollar paid on advance subscription, but we have now decided to allow an estimate with each \$2.00 paid on back subscription before Nov. 1st. Also, every subscriber who pays up or ahead and procures one or more estimates with same, may enter as many additional estimates as he desires at the rate of 50 cents for one estimate, or \$1.00 for three.

Numbers on our premium offer which has been standing for some time will not be given with any payment that is accompanied by an estimate.

It is costing the News no small amount to furnish its subscribers with this great privilege and the terms prescribed will not be varied from in the least for any one.

The earlier your estimates are in the greater the prize will be if you are the nearest estimator.

In reply to inquiries we have pleasure in announcing that Ely's Liquid Cream Balm is like the solid preparation of that admirable remedy in that it cleanses and heals membranes affected by nasal catarrh. There is no drying or sneezing. The Liquid Cream Balm is adopted to use by patients who have trouble in inhaling through the nose and prefer spraying. The price including spraying tube, is 75c. Sold by druggists or mailed by Ely Bros., 55 Warren st. N. Y.

POULTRY AND BEES

HANDY SHOP MACHINE.

How Any Ingenious Farmer Can Connect a Turning Lathe with a Sewing Machine.

Every farm should have a tool room and machine shop of more or less size. A very convenient machine for doing various kinds of repair and other work is a turning lathe. At little expense a sewing machine may be easily put to such service, as the illustration portrays.

Take the mandrel that works the needle of an old worn-out sewing machine out, with the pulley and balance wheel on, as shown at d and e, Fig. 1; also drive wheel and treadle. Attach drive wheel to post c, treadle rod to e, and c. The mandrel has a small hole drilled in the end outside of the balance wheel, in which a sharp-pointed steel pin is inserted and on which it revolves; see Fig. 2. The mandrel is lashed in post b. Fill half way on mandrel and let cool; then fill one inch above mandrel, putting a small stick to make a hole for oil. If the mandrel is of steel, have a blacksmith flatten the end, as at f; if cast, have holes drilled in pitman wheel and threads cut and pins put in like e, to hold wood in lathe. Pieces a are three by eight inches by six feet long; e, b and g are two by six inches. From floor to top of a is 30 inches; from top of a to e ten inches; h is a screw with a crank to it and works through g to hold wood in lathe, as shown by dotted lines in Fig. 1. This lathe is intended only for small work, as the power is not sufficient for heavy work—J. D. Magruder, in Farm and Home.

KEEP THE PULLETS.

The Wise Poultryman Can Reap a Rich Reward by Being Conservative.

Prices of eggs hold up well and there is no reason why they should be lower till next spring, even if they are—then in fact there is every indication that they will be higher right along. Every keeper of hens, whether a small flock or a large number, ought to plan to reap a harvest from this fact.

The first thing to do is to help the molting hens to get their new dress on just as soon as possible; give them good, dry quarters at night and a chance to get to sleep during the day should they rain. Feed liberally with a variety of food including some linseed meal, sundew seed or green cut bone. The next thing to do is to keep all the likely pullets.

Do not be led into selling a single pullet just because the prices for spring chickens are good. A pullet well fed from now on will gain in flesh or weight till she begins to lay, then for awhile her keeping is at a daily profit.

When she is through laying, if you are disposed to sell her she will bring you nearly as much, if not just as much on the market as a hen as she will now as a spring chicken. That's one advantage the pullet has over the cockerel. As he grows from a spring chicken to a rooster he loses in price as he increases in weight, and in the vast majority of cases is a useless boarder all the while. Get rid of as many of them as you can spare at once and make room for the pullets.

Having decided what pullets are worthy of being wintered, feed them from now on to produce growth and eggs. Be liberal with your feed, and if the fowls are running at large a feed of corn just before going to roost will not make them overly fat. A poor, scrawny hen is not likely to produce many eggs.

When we advise saving every likely pullet we mean the late hatched ones as well as the early ones. They will all keep growing till they lay if fed and cared for as suggested above. The early hatched ones should be kept to lay in a few weeks now and the others should follow right along as they reach the proper age.

Keep the pullets.—Farmer's Voice.

Don't Neglect the Hens.

The man who neglects his hens merits the severest punishment from his friends, says the Maine Farmer. Hens are willing servants, but the man must get their friendship and keep on the sunny side of their disposition. You cannot order the eggs and have them forthcoming, neither can you "shoot" the hens on to the nest and get eggs. Somehow the idea prevails that a pair of maul and dish of grain are all that is necessary to insure faithful service, whereas these simply sustain life. It is the little attentions, the fussy things which pay. Clean pens, sweet laying boxes, fresh air, pure water, a shady place free from green grass and weeds, turned earth constitute some of the steps necessary before the largest production can be expected.

Beautiful Complexions.

Are spoiled by using any kind of preparation that fills the pores of the skin. The best way to secure a clear complexion, free from sallowness, pimples, blotches, etc., is to keep the liver in good order. An occasion dose of Herbine will cleanse the bowels, regulate the liver, and so establish a clear, healthy complexion, 50c at A. M. Hughes.

Miners Wanted.

50 miners wanted at Torchlight, Ky. Steady employment. Apply to John Wallace, formerly Supt. Peach Orchard mines, now in charge of Torchlight mine.

We pay 75 cents per ton for mining lump coal.

Torchlight Coal Co., Louisville, Ky.

PLEA FOR BEEKEEPING.

There is No Good Reason Why Every Farmer Should Not Keep a Few Hives.

Marie Aiken, in the Agricultural Epitomist, has much to say in favor of beekeeping, and regrets that fewer farmers keep them than in former times. She says: "I know that it is claimed by some writers that the honey crop is on the increase. Perhaps it may be in one way. On a large scale here and there private enterprise may be furnishing much for the city markets, but that which I speak of relates to the keeping of enough bees for our own home use. Almost every farmer in the old days provided his own table with the healthiest of sweet foods, but in these days he does without. As yet what is raised on the farm which so amply pays for itself, with so little labor and outlay of feed, as bees? I can remember hearing old ladies say that the eating of much honey was a preventive of cancer. I cannot say as to its medicinal quality in this line, but it will allay inflammation and thus soothe the disease of an inflammatory character along the digestive tract.

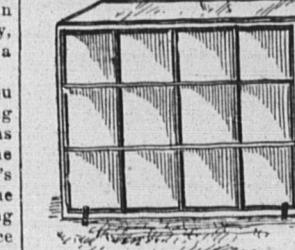

"Why do not more people keep bees? There was a time when old-fashioned hives and cross bees might have frightened some people away from the industry, but now bees are progressing along the line of civilization and education. They seem to understand that the sting, and the poison it conducts, was not given them to go to battle with, but to add the drop to the honey which keeps it from spoiling. Italian bees are singularly docile in this line; the Syrian bee still more so. There are types of honey bees in South America that do not sting at all, but as yet they will not live in this country. It is very likely that some time, by crossing, we can get them acclimated. The Italian bee, take it all around, is our favorite bee. Its tongue is long enough to dip even into the red clover for honey. It will crawl into flowers that other bees, especially the black bees, shun. It will work on days so cold that other bees would not think of venturing out.

"While there seems to be natural born bee workers and persons born immune from bee poison, yet anyone if he would only make up his mind could hive bees. The boxes should be set facing low trees. Here the bees, will make a first stop, and a very young person, either girl or boy, can readily learn how to get them into an empty hive which should always be ready for such cases in swarming times. A good bee veil and calender are the main requisites. A bee soon scents a nervous person and resents being handled in a shaky way. Another thing, a bee on business instead seldom stings. After they swarm there is little danger of stings, just as there is little danger when the bee is loaded with honey."

COMFORTABLE COOP.

It Consists of a Dry Goods Box with an Old Window for the Front or Door.

When the chicks are about 24 hours old, I put 20 with one hen and place them in a dry goods box which has an old window for the front so that on stormy weather and cold nights they can be shut in with just a crack for air. It has a good floor, which is necessary for early chicks.

HOTHOUSE COOP.

In bright days I let them out in the middle of the day. The chicks are not fed before 24 hours old. Then they are given meal mixed with sour milk or curd. The feed is never fed as soon as mixed, but is allowed some time to swell and is then fed warm. Chicks are fed four times a day until they weigh two pounds, and after they are a few weeks old cracked corn is fed at night. The accompanying illustration shows a picture of the coop.—Orange Judd Farmer.

AMONG THE POULTRY.

Dry ground is the best floor for a poultry house.

Meat in the rations stimulates the hens to lay freely.

Force the hens to molt before the cold weather is on.

Hens that are good at laying are seldom good at sitting.

The hen that is made or let to become too fat will lay no eggs.

Without occasional infusion of new blood the flock tends rapidly to scrubdom.

The care you give during October makes or unmakes your hens for next winter.

Except in the mating season, the hens and pullets are better off separate from the males.

It isn't at all necessary to have a fine or fancy poultry house. Comfort is all that is needed.

The best fowls are none too good. The medium fowls are only tolerable. The inferior fowls are a snare and a delusion.—Commercial Poultry.

Democratic Ticket.

FOR CONGRESS
JAMES N. KEHOE,
OF Mason County.

FOR CONGRESS, 10TH DISTRICT,
F. A. HOPKINS, of Floyd County.

When Hopkins joins Kehoe in Congress, won't Big Sandy be right in the push? They'll have to dam this river or else look up these Congressmen.

Petitions from Boyd and Lawrence counties have been presented to the judicial district committee, asking them to change the date of the convention.

The picture man has been very kind to Mr. Castner, in printing his name under a good-looking portrait. Those who have never met the gentleman, would, upon seeing him, conclude that he was just recovering from a severe spell of illness, so little does he resemble the picture.

The harvest machine combine, under the name of the American Harvester Company, is reported to be rapidly near completion. It will have a capital of \$120,000,000, and \$65,000,000 has been raised to finance the scheme. The farmers will "pay the freight." Kehoe is opposed to all the trusts.

Hon. F. A. Hopkins is making it warm for his opponent in the Tenth district. White had sent out circular letters to precinct leaders instructing them to corral the Republican voters in "blocks of ten" and take them to the polls. Mr. Hopkins has had these circulars published and also uses them as a text for speeches.

Mr. Castner, Republican nominee for Congress in this district, failed to properly comply with the law in filing a certificate of his nomination, and his name could have been legally omitted from the ballots. But no Democratic official wants to take advantage of the opportunity, and his name will appear just as though he had complied with the law.

It is being erroneously reported that Mr. Castner is the author of the present law in Kentucky requiring coal companies to pay their employees twice monthly. The author of this law is Mr. Bennett, Representative from Ohio county. Mr. Castner introduced a similar bill two weeks after this one went in, but the former was not heard of again.

Some of the peanut politicians are saying that Congressman Kehoe did not know the River and Harbor Bill had passed until three days afterward. A telegram from him was received here, announcing the fact, and it was filed at Washington within five minutes after the bill passed. The trouble with this three-days story is that it is too unreasonable to fool any one.

Congressman Kehoe's father joined the Union army and was killed in a terrible battle. His body was buried with hundreds of others, and his family never knew where it rested. The widow bravely and correctly reared her five small children to honorable manhood and womanhood. Today they are an honor to their parents, and their native city of Maysville is proud of them.

Tutt's Pills
FOR TORPID LIVER.
A torpid liver deranges the whole system, and produces
SICK HEADACHE,
Dyspepsia, Costiveness, Rheumatism, Sallow Skin and Piles.
There is no better remedy for these common diseases than Dr. TUTT'S LIVER PILLS, as a trial will prove. Take No Substitute.

them. The best citizens of that place, regardless of politics, say that Jim Kehoe has been clean, upright and industrious from his boyhood up, and that he is worthy of any trust that may be reposed in him.

The campaign has been abroad in the land, as usual. He is asserting that Congressman Kehoe is opposed to free schools, when the truth is that Mr. Kehoe favors not only the free school system, but advocates its betterment, and wants cheaper school books. Mr. Castner voted against the bill to provide cheaper school books in Kentucky, while in the Legislature last winter. This is no campaign lie, but is on the records for any one to see. Mr. Kehoe is decidedly opposed to mixed schools, however.

Kehoe is the only Congressman who ever made a personal investigation of the resources of the Big Sandy valley. It will be remembered that after his election he rode to the head of the two rivers and saw for himself the great wealth of the valley. He did this in order to be able to talk intelligently in Congress about it. This is the thorough manner in which he goes about all his work. He is very enthusiastic on Big Sandy river improvement and labored for the appropriation day after day during the last session.

Continuing the article about Congressman Kehoe, published last week, the Maysville Bulletin says:

"Among the other important bills introduced by him and still pending in Congress is one for the appropriation by the government of the sum of \$100 for the funeral expenses of indigent soldiers, the bill providing for such payment in every case. Certainly no American citizen is mean enough to want to see an old soldier buried by public subscription or go to a potter's field, yet this is what has happened to several of them, but will never happen again after Mr. Kehoe's bill becomes a law. It is a just measure and should have been enacted into a law before this. If returned to Congress Mr. Kehoe will see that it is passed. By the passage of Mr. Kehoe's bill regulating the printing of seed franks, members have been saved much trouble, and the government will hereafter save annually more than his salary."

Hundreds of old soldiers and their dependents have been personally benefited by the interest taken and work done in their cases by Mr. Kehoe at the Pension Office in Congress. No man could have been more faithful to them or more successful in his efforts, and certainly they will not fail to show their appreciation of his services, by rallying to his support in November. The old soldier who fails to vote for him stands in his own light. No man, woman or child ever wrote to him on any subject who did not receive a prompt reply and satisfactory attention.

Brilliant, brainy and attentive to duty, initiative in his work and successful in what he undertakes, temperate, moral and pure in character he is indeed an ideal public servant and his equal has seldom been seen in Washington. A native born Kentuckian, the builder of his own fortune and greatness, the father of an interesting family, a trustworthy friend, an intense American, a leading citizen and withal a kindly, charitable man, it is no wonder that he is the leader of his party and idol of his people, and that he shall and will be returned to Congress there is no doubt. The people are not often given a chance to elect such men to public places. He has been tried and found unusually competent and worthy."

OUR NEIGHBORS.

The mysterious railroad surveying is still going on all around us.

Reuben Patrick died Saturday after an illness of fever at his home at Salsyville.

At Ironton last Friday an N. & W. train killed Charles Davidson and Henry Gelfwine and injured Frank Gelfwine.

Work on the locks in the lower Big Sandy is now going along satisfactorily, and if the season remains open rather late, the concrete walls at both places will be completed.

W. M. Langley, of Spurlock, Floyd County Ky., has been appointed to a special agency in the Manufacturers Division of Census Office. His work will be to gather data from the Electric Light Plants in the State of Kentucky.

In Circuit Court at Paintsville, Levi Pennington was given one year in the penitentiary for stealing a ham of meat. He is 75 years of age and is the oldest person ever sent to the pen from Eastern Kentucky. The case of Music for murder of Ghost, on Greasy creek, was continued for the defendant.

Rev. J. T. French, the new pastor at the M. E. Church, South, was greeted by two good congregations yesterday, and preached to the edification and delight of all. His friends of yore say that he has old-time fervor of spirit, and six years of new conditions and good health have added greatly to his intellectual stock. His voice in song is still sweet. We congratulate his people on his appointment.—Ashland Independent.

The officers and members of the M. E. Church South, in this place are preparing to at once erect a parsonage for their new pastor.

We learn that J. C. C. Mayo has decided to the church two lots on East and Fifth Street and that Alice Mayo has given her check for three hundred dollars, and that others have subscribed and the remaining amount will be secured at once. Work on the building will commence at once.—Paintsville Commercial.

Inez Ky., Oct. 21.—Van Hertram was shot and instantly killed by Isaac Muncy on Wolf creek, six miles from here. A dispute arose over Muncy passing over land belonging to Betram. Betram drew a rifle on Muncy, it is said, and Muncy shot him through the heart.

Muncy is a son of Thomas Muncy, a prominent minister of the United Baptist Church and a brother to John Sherman Muncy, who killed G. W. Newson two months ago. Muncy came in town and gave up to the officers, claiming he shot Betram in self-defense.

Congressman James N. Kehoe spoke at the court house last Monday to a splendid audience.

The large room was crowded to its utmost capacity and the speech was listened to most attentively all the way through.

Mr. Kehoe says it was one of the most intelligent and representative public audiences he has ever addressed.

The speech was able and interesting, as his always are. He drives right to the point and leaves no doubt about where he stands on the great public questions. All were highly pleased with his speech.

Counties Financial Report.

The total indebtedness of the County on Oct. 18, 1902 including Jail Bonds and other indebtedness was \$40,827.37.

Apply as payment on this the taxes already paid into the treasury by J. L. Vaughan amounting to \$13,127.00 and the amount yet due by him and the taxes now being collected by Jesse H. Cordle for the year 1902 will leave the actual indebtedness of the County approximately \$12,000.00. There was appropriated at the April and October terms 1901 out of the Common, Court House and Road and Bridge funds \$5392.66 being the amount of indebtedness created since January 1st 1902. There was included in the \$5392.66 \$946.68 for treating smallpox patients and expenses, quarantining, feeding &c at four different places, to-wit: on Tag, Peach Orchard, George creek, and Right fork of Blaine, after deducting \$946.68 from \$5392.66 leaves \$4445.98 actual expenses of the County since January 1st 1902 which includes Roads and Bridge, keeping of the Poor House, salaries of officers, repairs on Poor House and Jail sewer &c.

At the April Term 1902 claims amounting to \$1645.35 created prior to January 1st 1902 were allowed out of the Common and Court House funds and the common fund being then exhausted remaining claims on that fund were continued and the Road and Bridge fund then being overdrawn on the levy of 1901, \$2705.61 as shown by the report of O'Neal and Conley the R. and Belairs were also continued until the October term and at that term claims amounting to \$7549.82 created prior to January 1st 1902 were allowed out of the R. and B. fund and also \$2705.61 created prior to January 1st 1902 allowed out of the Common fund.

At last the below out of \$5922.66 was allowed out of the Common fund.

The New Railroad.

The following has been handed us by a citizen:

The West Virginia and Kentucky Railroad is rapidly completing its surveys; several different routes have been located and the Company will soon be ready to decide which route will finally be adopted as the best. The road proposed enters the county from Martin and follows Tag River to Louisa, passes Fallsburg, down Seed-Tick to Boyd County.

Railroads are always a great benefit to every country, they are educators and developers. Vast sums are expended while they are building, thus adding to the prosperity of the country. When built they continue to bring large amounts of money into the country and furnish work to the small army of men necessary to run the roads.

The citizens of Lawrence reached by this road should do all in their power to decide in favor of the route that will be such a great benefit to them. Running through a section of the county at present entirely without transportation facilities, except at a great distance from their homes, it offers an opportunity that should not be allowed to escape. It increases the value of every farm through which it runs. The farmer will be able to ship his products directly to the markets of the largest cities, thereby obtaining larger prices, while at the same time still further increasing his profits by saving the expense of hauling long distances to a shipping point. This large increase in profit will far more than repay for the land used to build the road.

But this is not the only material benefit gained by the property owner. The section of the county through which the survey was made abounds in coal and other valuable minerals. At present with no means of putting it upon the market, it is practically of no value. With a railroad giving an economical method of shipping, its value to the owner is hard to over-estimate. It is a common saying that, "One acre of coal is worth a whole farm," but to make this true the coal must get to market. To the people along its line this road offers a sure means of realizing on the wealth stored in the ground.

The road is before the people with a business proposition which is not only fair and just, but very reasonable, when the increase in property value it will bring is considered.

Will the people of Lawrence County take advantage of it? Let us hope they will grasp the opportunity that is presented to them. No selfish consideration should stand in the way of the public welfare.

Mayo's Offer Accepted.

The board of trustees of the new college to be built at Paintsville by the M. E. Church, South, held its first meeting at Paintsville last week.

An organization was effected by electing Zephaniah Meek, D. D., of Catlettsburg, as chairman, and Judge H. B. Rice, of Paintsville, secretary.

The proposition of J. C. C. Mayo to contribute \$10,000 in cash and a site of four acres, was submitted to the board in writing, and was accepted. Choice of two pieces of ground of four acres each was offered by Mr. Mayo. The board looked them over carefully and discussed the matter of selection at some length. There was a difference of opinion as to which was the more desirable lot, and this point was left open until the next meeting.

Another meeting will be held at Paintsville in about two weeks, the exact date to be fixed later by the chairman. At this meeting plans for the college buildings and dormitory will be submitted. It is thought the cost of the buildings to be erected at once will be about \$10,000.

Great interest is manifested in the enterprise in the upper Big Sandy Valley.

Rev. S. A. Donahoe, Presiding Elder of this district, is a member of the board.

Death of a Little Child.

The body of Frances Elizabeth, the little daughter of Mr. and Mrs. T. B. Myers, of Huntington, was brought here Monday and buried in Pine Hill Cemetery that afternoon. The funeral services were held from the residence of Mrs. Myers' parents, Mr. and Mrs. J. W. Yates. Dr. J. M. Boland conducted the services.

The child was twenty-one months old and had been sick eighteen days. Its death was caused by brain fever, there being also some symptoms of spinal meningitis. The case was regarded as hopeless for several days before death came to the relief of the little one.

The parents and other relatives have much sympathy extended them in their bereavement.

PIKEVILLE.

The C. & O. Railway company have completed the new county road through the narrows above town which they had to make on account of their "Right of Way" taking up the old county road. They are now engaged in grading the railroad.

We were glad to welcome back among us Mr. and Mrs. J. W. M. Stewart who have been away for some time.

There were four preaching services in town yesterday, all with goodly congregations. Rev. W. F. Tyree preached in the M. E. Church South, Rev. C. Reynolds, in the M. E. Church, Rev. Jerry Gross in the Christian Church and Rev. Jas. F. Record in the new Chapel Hall of the Pikeville College Institute.

The people here are anxious that some one come and take the place of the lamented E. S. Ferguson and continue the publication of the Pikeville Independent. Pikeville and Pike county needs a good newspaper.

It is thought that John Gilliam is taking fever. All the other cases spoken of in our last letter are reported as improving.

The Pikeville Public School Nine defeated the Pikeville Collegiate Nine Friday 36 to 10. Saturday "The Old Pikeville Nine" defeated the P. P. S. Nine 21 to 7.

We are informed that the Northern Coal & Coke Company will continue their headquarters here for quite a while.

Rev. W. F. Tyree left here this morning for the purpose of bringing his family to our town for the present year. He has rented the property of Mrs. Dixie Lawson on 3rd street.

R. T. Williamson one of the best men in Pike county, was thrown from a horse and killed near the mouth of Pond Creek one day last week.

Some excitement prevails here from the fact that we have in the Pikeville jail a negro charged with criminal assault. There is some talk of lynching.

Mrs. Jno. B. Morris and son J. M. Morris are visiting relatives here.

We noticed our new Deputy Assessor, Jacob Sanders of Dorton, on our streets yesterday.

ALAN QUATERMAIN.

TRAM.

Several improvements have been made in this vicinity since last we wrote the News. Richard Hatcher is erecting a new dwelling house, which when completed, will be one of the most attractive and roomy homes along the river between Pikeville and Prestonsburg. He has also made an addition to his already commodious store, which adds greatly to its convenience.

Besides the above improvements we note the following. Geo. Spears has built a stone chimney to replace the one that fell with such disastrous results last summer. New log trucks are being put on the tram road, adding greatly to the output of timber.

Mrs. D. W. Salmons is very ill. An old time shooting match, with a barrel of flour as the prize, was witnessed here Saturday. There was a good crowd in attendance, and much good-spirited rivalry was displayed between the contestants. Lee Layne, Farmer Howell and Jno. Layne put in the best shots and divided the prize.

W. Lee Roberts and W. M. Turner, two of Laynesville's prominent young men, stopped here on their way down the river Sunday, and paid the photograph gallery a visit.

Jim O'Brien and Jno. Sagraves, two hustling knights of the grip, passed here last week, but only stopped long enough for a hearty hand shake and inquire after the prospects for an order.

Jim Hatcher, of Pikeville, was here Thursday and Friday.

Mrs. B. F. Amburgey, went to Cow Creek Saturday to visit relatives.

Dick Garrett, of Shawneetown, attended the shooting match, Saturday.

The logging job here is moving along nicely. About three thousand oak and poplar logs are out to the river now and the average output is about sixty per day.

Mrs. Alifair and Miss Alice Burchett, of Buffalo, were here last week.

Jack Collins and wife, nee Miss Annie Spears, were here Sunday from Alex Wells' Camp where they are making their home.

Hatcher's Camp here is getting to be a favorite place for traveling men. The novelty of camping life appeals to most of them, and besides they know that there is always plenty of "grub" on a "shanty" table.

F. A. Hopkins, democratic candidate for Congress, is ahead of the bounds in this neighborhood.

STARTING THE FURROWS.

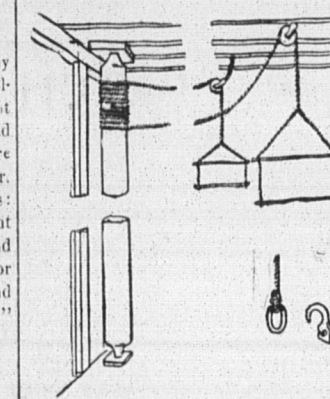

If the First Are Crooked It Is Hard to Make Any Straight Ones Afterward.

Good plowing requires a knowledge of the principles of soil turning, and requires experience in doing the work. If the first furrows are run carelessly or incorrectly it will be found exceedingly difficult to do a good job. The plowing of old fields is less difficult than the plowing of new ones, for the reason that the old fields have landmarks that are easily understood. This is, of course, true only if the plowing of former years has been correct. It is a somewhat difficult task to turn straight furrows across a new field with nothing to serve as a guide but some object on the further side. The skilled plowman should not trust the turning of the first furrows to the boy or the unskilled hired hand. If the first furrows are crooked it is difficult to make any straight ones afterward. The best plowman will find it difficult to correct the errors of his predecessors. Even the skilled plowman will not find it an easy matter to run the first furrow straight ahead of him and keep his team well under control. If the field is to be plowed on the "lands" plan, then there is an added reason why the best plowman on the farm should take the matter in hand, for there will be several "first" furrows to plow. The first furrows are the patterns of all that are to follow them. Landmarks set up on opposite sides of the field will assist the plowman in making his furrows straight whether he be skilled or a novice.—Farmers' Review.

LIFTING ARRANGEMENT.

For Removing Bed or Ladders from the Farm Wagon It Is Said to Be Unequaled.

A good lifting arrangement for removing bed or ladders from the wagon is herewith illustrated. To the joints of the left over the barn floor, at proper distances, are chained two pulleys. Over each of these passes a half-inch rope, one end of which is connected with a stretcher large enough to slip over the end of the wagon bed. The upper crossbar of the stretcher may simply have a deep notch at each end, just wide enough to receive the rope. A knot in the latter just below the knot serves to hold it in place. The lower bar is a trifle longer and has the rope securely tied at each end. Supposing now that the stretchers are sufficient

HANDY WAGON BED HOIST.

ly low to receive the bed from the wagon, the rope passes from one pulley toward the side of the barn floor, then through a hole near the top of the windlass or revolving pillar, as shown in the engraving, and out again to the other pulley.

The windlass may consist of a six-inch cylindrical post which receives the rope near its top, while at a convenient height from the floor are holes for the insertion of levers used in turning. The wagon being driven into place, the stretchers are slipped over each end of the bed, which is then quickly and easily drawn to the top by revolving the windlass. When sufficiently high one of the levers is left in place with the outer end resting against some upright timber of the barn frame and thus holds it secure. For hay ladders, instead of the lower bar of the stretcher, the rope may terminate in a ring, which slips over an iron hook. These hooks are permanently fastened to the ladders at suitable points where they will not interfere with anything else.—Orange Judd Farmer.

Importance of Alfalfa. Alfalfa is rapidly growing in importance, and becoming a considerable factor in the enlargement of the meat supply, largely taking the place of corn in feeding west of the Mississippi valley. The area is enlarging, and the first cutting of this year is very large. Horses thrive on it with little grain; cattle fatten on it with a finish of corn, and in its use the hog has become a hay-eating animal. It is, to an increasing extent, taking the place of range grasses in the economy of the cattle industry, and the change will cause an enlargement rather than a decrease of the meat supply.

Feed Corn on the Farm. A heavy shipment of corn from the farm is nothing to be proud of. It is an evidence of poor farming methods. Annual assessment levied on the fertility of the soil, and the proceeds shipped away in that form, is ruinous. We are a meat-eating people. The grain is but a small part of the corn-stalk. When corn is sold, the stalks are in many instances worse than wasted. If the corn crop is fed on the farm and its equivalent sold in beef and dairy products, the soil is continually increasing in fertility.—Farm and Home.

Miners Wanted.

Good miners and machine men can get steady employment at good wages at the Kentucky Block Canoe Coal mines in Morgan county. For particulars apply to M. L. Conley, Supt., Canoe City, Ky.

OLE.

Farmers are gathering corn as they expect an early winter. Milt Pickle passed down our creek Wednesday. Silas and Harve Jobe have returned from W. Va. There will be a Sunday School rally at Midway on the first Sunday in November. Miss Nannie Jobe visited the Misses Carter last week. Several of our boys are talking of going to Louisiana. Jim Compton returned home Sunday evening. Wm. Arrington was in our midst Sunday. Silas Jobe will soon have his house completed. Black eyes.

A PICTURE

Of health, we say of a perfectly healthy woman, and it is a picture everyone loves to look upon. All the pictures of all the artists who have ever painted the glory and beauty of womanhood, are only copies and imitations of this picture. Never artist mixed a color on his palette that can vie with the hues which tint a healthy woman's cheek. Why should this charm be sacrificed to sickness? It need not be. Save in rare cases. The general health of woman is so linked with the local womanly health that a weak cheek and sunken eye are in general but evidences of womanly health is restored.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every five minutes. The kidneys are your blood purifiers. They filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble. Kidney trouble causes quick or uneasy heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys. But modern science proves that nearly all constitutional diseases have their beginning in kidney trouble. If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Write for it free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Do You Want to Yawn?

Feel cold shiverings, aching in the bones, lack of energy, headache and great depression? These symptoms may be followed by violent headache, high fever, extreme nervousness, a condition known as malaria. Herbine cures it. Take it before the disease gets a fair hold, though it will work a cure in any stage. J. A. Hopkins, Manchester, Kan., writes: "I have used your great medicine, Herbine, for several years. There is nothing better for malaria, chills and fever, headache, biliousness, and for a blood-purifying tonic, there is nothing as good." 50c at A. M. Hughes.

Mothers.

Who would keep their children in good health, should watch for the first symptoms of worms and remove them with "Worms' Cream Vermifuge." It is the children's best tonic. It gets digestion at work so that their food does them good, and they grow up healthy and strong. 25c at A. M. Hughes.

BUSSEVILLE.

The latest arrival in town is an 8-pound Pickle at the home of Samuel J. who is undoubtedly the proudest and happiest man on earth. The hake has been not been christened as yet, but we speak Mark Hannah or John W. Yerkes.

Lindsay Pigg was again the lucky man at bidding on the keeping of the Poor House at \$5 and 45 cents per week.

A few days ago Mr. O'Byrne was here and took away little Charley Moore to home he had previously arranged for him. May this work continue.

Isaac Edwards has purchased the J. F. Meek farm for the consideration of \$1000.00 cash in hand paid. We are not advised whether Mr. Edwards will locate here or rent his property.

Mont Holt has his house in fine progress.

E. J. Skaggs has moved to Lewis county.

Alvis Vaughan, of Lick Creek, was here Sunday with an extra "foot" which he presented to "Ooon Cook" with appropriate ceremonies, such as "The Midnight Blind Negro &c." We are glad his visits are becoming so frequent as he is becoming an important factor in our S. S.

Rev. K. J. Bevins, the new pastor of the M. E. Church, South, on Blaine circuit, filled his appointment at Forks of Blaine Sunday and preached an able sermon.

F. R. Bussey has purchased the farm of Paul Pigg, where he now lives.

Teachers Association for Magisterial district No. 1 will be held here, the first Saturday in November. An elaborate program will appear later, and every teacher in the District is expected to be present. Prof. G. M. Elam and Atty. J. A. Hotten will be present.

First Prize \$10,000; Second Prize \$3,000; Third Prize \$1,000. Five Special prizes of \$1,000 each for Early Estimates.

Every subscriber to The Big Sandy News will have an opportunity to share in these magnificent prizes if he wishes to participate in the Great Educational Contest in which these prizes are given.

The subject matter of this great contest is the total vote cast for Governor in the States of New York, Pennsylvania and Michigan on the 4th day of November, 1902.

Every person interested in the science of Government should be interested in the election in these states. An election in New York is always of national import, and in point of political significance, Pennsylvania is second in importance only to the great Empire State, while Michigan is rapidly becoming an important factor in the sisterhood of States. Much valuable information can be gained by a study of the political conditions involved in the elections to be held in these three States.

CONDITIONS OF THIS GREAT CONTEST.

Every subscriber who remits \$1.00, on advance payment for One Year's subscription to The Big Sandy News will receive one certificate that will secure for him any prize which his estimates entitle him to claim.

When you send in your subscription, also send your estimates of the total vote for Governor of the three States. Write your name, address and estimate in the Subscription Blank below and mail it to The Big Sandy News, Louisa, Ky.

The contest will close at midnight, November 3, 1902, and no estimate received after that hour will be allowed. The official certificates of the Secretaries of the three States, showing the total vote for Governor, will determine who are entitled to the prizes, and the awards will be made by a disinterested Committee of prominent judges, just as soon as the official figures can be obtained.

Special Offer.

It was originally our intention to allow an estimate only with each dollar paid on advance subscription, but we have now decided to allow an estimate with each \$2 paid on back subscription before Sept. 1st. Also, every subscriber who pays up ahead and procures one or more estimates with same, may enter as many additional estimates as he desires at the rate of 50 cents for one estimate, or \$1.00 for three.
